

The Land of Zarahemla and Nephi were nearly surrounded by water except for the narrow neck

Land Northward

Desolation

Narrow Neck

Bountiful

Land of Zarahemla

Land Southward

Land of Nephi

Is it possible to find a solution to these difficult requirements? The Pasion River model accommodates it very well?

*Alma 22:32 And now, it was only the distance of a day and a half's journey for a Nephite, on the line Bountiful and the land Desolation, from the east to the west sea; and thus the land of Nephi and the land of Zarahemla were nearly surrounded by water, there being a small neck of land between the land northward and the land southward.*
